

# SU PRESIDENT

***Leading change. Amplifying voices. Bringing students together.***

As President of the Students' Union, you'll be the main student voice at the University of Wolverhampton — the person who brings everyone together and makes sure students' needs shape the big decisions. It's a full-time, paid role that's all about leadership, communication and making real change happen across every part of university life.

You'll be the link between students, the Students' Union, and the University's senior staff. You'll represent all students at the highest level, making sure their views are heard when policies are made, services are shaped and the future of the University is planned.

## ***What You'll Be Doing***

As President, you'll be involved in everything from big-picture strategy to everyday student life. You might be:

- Leading campaigns on the issues that matter most to students — from the cost of living to better campus facilities.
- Working with University leaders to make sure students' voices drive real change in teaching, support and wellbeing.
- Supporting the other Officers and helping the team work together on shared goals.
- Overseeing the Union's democratic structures — making sure students can vote, have their say, and hold the SU to account.
- Meeting local partners, community leaders and national bodies to champion Wolverhampton students on a bigger stage.
- Taking part in events like Welcome Week, open days and community projects — helping new students feel part of something special.

It's a role that mixes leadership, teamwork and creativity — and no two days are ever the same.

## ***Why You'll Love It***

Being President is a chance to make a real difference. You'll:

- Lead the way: Be the face and voice of the Students' Union and represent thousands of students.
- Shape the future: Influence decisions that affect everything from academic policy to student life and wellbeing.
- Build your skills: Learn about leadership, negotiation, communication and strategic thinking — experience that will take you anywhere.
- Work with inspiring people: Collaborate with staff, community partners and national organisations like the NUS.
- Leave your mark: Help build a stronger, more inclusive, and more connected Wolverhampton for the students who come after you.

If you're passionate about student life, ready to lead, and want to make sure students have a real say in their university experience, this is the role for you.

# MAKE YOUR MARK
