

VP ACADEMIC

Be the voice of students' learning at Wolverhampton

Are you passionate about making students' voices heard? As Vice President Academic, you'll lead the way in improving the learning experience for everyone at the University of Wolverhampton. This full-time, paid role is all about helping students shape how teaching, studying and academic support work across the University.

You'll be the main student representative for academic issues — sitting on important University meetings, sharing what students really think, and making sure decisions are made with students, not just for them. You'll also work closely with course reps and faculty reps to make sure every student, in every school, has their say.

What You'll Be Doing

No two days are the same! You might be:

- Meeting University leaders to discuss feedback and make changes that improve learning and teaching.
- Supporting students through academic challenges like appeals or disciplinary processes.
- Running campaigns about issues that matter to students — from assessment feedback to study spaces.
- Helping course and faculty reps make change in their schools and celebrate their wins.
- Working with your fellow SU Officers to make sure students' needs shape everything we do.

You'll be out and about chatting with students, attending events, and finding out what's really going on in classrooms and lecture halls. You'll take what you learn to the people who can make things happen — and then make sure students know what's changed as a result.

Why You Should Get Involved

This role is perfect if you love helping others and want to make a real difference. You'll:

- Make an impact: Influence how teaching and support are delivered across the University.
- Learn loads: Develop skills in leadership, communication, teamwork, and problem solving.
- Grow your confidence: Speak up in big meetings and represent thousands of students.
- Build connections: Work with staff, local leaders, and other student reps.
- Be part of something bigger: You'll also be a **Trustee** of the Students' Union, helping to shape its future and make sure it stays student-led and inclusive.

If you care about making sure students have the best possible academic experience — and you're ready to lead positive change — this could be the perfect role for you.
